

PEOPLE  
WORKING GROUP

The purpose of the People Working Group is to identify and suggest ways to train, educate, and motivate the Federal employee in energy conservation and to assist the technical working groups. Activities will include all facets of employee awareness, training and education. This group will strive to identify opportunities for saving energy in the near term (less than one year) and to specify how these opportunities can be realized. The organizational entity, groups of people, or person responsible for directing, supervising, and insuring (through appropriate controls) the execution of programs will be identified. Energy savings and costs will be approximated. Existing administrative constraints impeding immediate action will also be identified and recommendations made to overcome these constraints.

CHAIRMAN Captain Robert Mumford, USN  
Department of Defense  
OASD (MRAL)  
The Pentagon - Room 1D760  
Washington, D.C. 20301
